

# Thanks for ordering a 3<sup>rd</sup> brake light cover!

The covers were chemically cleaned before packaging and are ready for paint or powdercoat(recommended) straight out of the box!

Specifically designed for 3rd gen Toyota 4Runners with rear spoilers.

## Installation Instructions

What you'll need:

- Installation hardware (included)
- Drill and 1/4" bit
- 7/16 wrench
- Phillips screwdriver

**Step 1** – Remove spoiler from back hatch of vehicle.

**Step 2** – Align cover over hole for the 3<sup>rd</sup> brake light.

**Step 3** – Once the cover is where you want it mark the hole locations on the spoiler. Then set the cover aside. (Look at pictures bellow)

**Step 4** – Using a 1/4" bit drill into the marked locations on the spoiler.

**Step 5** – Place cover over the face of the spoiler and use the included hardware to attach it.

**Step 6** – Reattach spoiler to vehicle.

**Step 7** – Enjoy!
